

Induction Cooktop 90cm (Install time 2-3 hours)

Supply and install \$1570.00 ex GST

Fisher & Paykel

IRS install includes

Our team will check the area for existing damage and make sure the new appliance's dimensions are correct to fit into the existing space.

- Isolate appliance and test to make sure it is off.
- Remove and disconnect old appliance
- Install new appliance to existing Gas connections.
- Secure appliance in place with fixing brackets if supplied
- Reconnect Gas and test all functions are working.
- Show customer how to use the appliance
- Supply of Gas certificate as per state's regulations.
- Removal and recycling of all rubbish, including old appliance and clean area.

IRS will advise a detailed extras quote for any work that exceeds \$400.00ex GST, above the quoted supply & install rate, before commencing installation. If you think your installation may not be straightforward, please contact us on **1300 415 214** to organise a quote. **Pre-Site inspection metro areas \$80.00 ex GST**

Note: We will only legally install a gas and electric appliance if your existing supply meets State regulations. We can bring your plumbing & electrical work up to standard, however extra charges will apply. Depending on the level of work required, an additional installation date may also need to be booked.

Please note extra cabinet work, electrical, gas piping or oven trim kit required would be an extra cost, please contact us on **1300 415 214** to organise a quote.

Supply & install unit ex GST	\$1570.00 ex GST
+ GST	\$157.00
Total including Includes GST	\$1727.00

Swap-overs of appliances that are like-for-like in size and requirements are included. However, if extra work needs to be done, extra charges will apply.

Extra works as listed below are all ex GST

- Installing new power points (from \$150)
- Installing complete new power circuits (TBQ)
- Installing new stainless steel surrounds for ovens and cooktops (TBQ)
- Installing timber and stainless steel panels (TBQ)
- Cutting timber benches and oven surrounds (from \$85)
- Cutting stone, granite and stainless steel benches (from \$350)
- Adding new gas points (TBQ)
- Converting natural gas over to LPG (from \$180)

Please note extra cabinet work, electrical, gas piping or oven trim kit required would be an extra cost, please contact us on **1300 415 214** to organize a quote.

IRS INTERNATIONAL GUIDELINES

PLEASE NOTE: For any Installation to be completed **CLEAR ACCESS** will need to be provided to our team. Please ensure installation area is clear as well as access points to this.

Please check our Webpage for all service areas in Melbourne and for any information regarding our T&Cs for our services.

Induction Cooktop, 90cm, 4 Zones

Series 7 | Contemporary

Black Glass

Instant response and cool-to-touch safety in a large cooktop area, with zones designed for different sized pots and pans.

- Child and pet safe - cooktop remains cool to touch until a pot or pan is placed on the surface
- PowerBoost activates a very high heat, bringing liquid to boil in less than a minute
- Touch&Slide controls easily control each cook zone

DIMENSIONS

Height	57mm
Width	900mm
Depth	530mm

FEATURES & BENEFITS

Instant response

Go from a boil to a simmer in seconds. Fisher & Paykel Touch&Slide controls react immediately when you adjust the temperature so you don't waste time in the kitchen.

Safer choice

Induction cooktops only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it - so you don't have to worry about curious little fingers or leaving an element on.

Easy cleaning

The surface around your cookware stays cool when you cook, preventing baked-on spills and making cleaning up a breeze. The durable ceramic hob surface just needs a quick wipe after use to maintain its good looks.

Enhanced features

PowerBoost and GentleHeat deliver either very high or very low heat fast for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

Superior efficiency

No heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooking more energy-efficient than electric or gas cooktops.

Precision Control

Fisher & Paykel induction hobs offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.

SPECIFICATIONS

Cleaning

- Flat easy clean glass surface
- Pan detection system

Controls

- Auto cut-off timer for each
- Minute timer
- Soft-touch electronic controls
- Touch and slide controls

Performance

- Gentle heat
