

All Brands Evaporative Cooler Service

IRS Evaporative Cooler service is based on a single story, and includes the following

- Clean & Sanitise Pads
- Comprehensive operation components check & report
 - Check drain, circulation pump, fan operation, controller, air flow assessment

Extra works as listed below are all ex GST

- Replace Evap Cooler Pads (TBQ)
- Replace Dump Valve (TBQ)
- **Double story access (from \$120.00 TBC)**

Note: All Plumbing and electric work is done in accordance with State regulations. We can bring your plumbing & electrical work up to standard, however extra charges will apply. Depending on the level of work required, an additional call back date may also need to be booked.
